

I am very worried about the unmitigated self-serving gall of Sinclair Broadcasting in deciding to force the airing of the anti-Kerry documentary on its stations. Those are OUR air-waves they are co-opting to swing an election to further perpetuate their dominance.

Come on guys. You are the gatekeepers. Don't let them get away with it. Our country and our freedoms depend on a free marketplace of ideas, not some futuristic nightmare of one monolithic source for all our information.

Please help us all.
Thank you.
